

BRIDGE STREET PIER

Bridge Street Pier in Bradenton Beach, FL has reopened following a \$2.2 million renovation. The historic pier at the end of Bridge Street had been closed after suffering hurricane damage

The 650' pier now includes the popular re-opened Rotten Ralph's restaurant, a fishing kiosk, harbormaster's office and rest rooms with showers.

Approximately 4,500 sq. ft. of Petersen's Snap-Clad metal roofing panels finished in Silver Metallic were utilized on the project. The panels were installed by Sutter Roofing Company, Sarasota, FL.

Architectural design was provided by O'Brien Architects, Bradenton, FL.

Petersen, a Carlisle company, manufactures PAC-CLAD architectural metal cladding systems in multiple gauges of steel and aluminum. PAC-CLAD products include hidden- and exposed-fastener wall panels, standing seam roof panels, flush- and reveal-joint wall panels, vented or solid soffit panels, perforated metal, coil and flat sheet, composite panels, column covers, plus fascia and coping. All are available in a Kynar-based 70% PVDF Fluropon coating in 46 standard colors and 16 wood grain finishes that include a 30-year finish warranty. Most colors meet LEED requirements and are rated by the Cool Roof Rating Council. Custom colors and weathertightness warranties are offered. BIM and CAD documents are available for most products. Founded in 1965, Petersen's facilities are located in Illinois, Georgia, Texas, Maryland, Arizona and Washington. For information on the complete line of Petersen's PAC-CLAD metal products call 800-PAC-CLAD, visit pac-clad.com or write to info@pac-clad.com.
