## CREEKSIDE MEDICAL OFFICE

Creekside Medical Office Building's new metal roof in Douglasville, GA, utilizes Petersen Standing Seam Panels for the metal roof as well the entranceways. Approximately 12,000 sq. ft. of Petersen's 24 gauge SNAP-CLAD metal roofing Panels finished in Aged Copper were installed on the roof. The building is highlighted by curved entranceways utilizing 1,000 sq. ft. of 24 gauge SNAP-ON Panels, also finished in Aged Copper.

The building was designed by Hill Foley Rossi & Associates, Duluth, GA. Principal architect Mike Rossi, a long-time proponent of standing seam metal roofing, specifies the system wherever possible because of durability, aesthetic appeal and color selection.

Installation of the Petersen system was completed by C&S Roofing Service, Douglasville, GA.

Petersen, a Carlisle company, manufactures PAC-CLAD architectural metal cladding systems in multiple gauges of steel and aluminum. PAC-CLAD products include hidden- and exposed-fastener wall panels, standing seam roof panels, flush- and reveal-joint wall panels, vented or solid soffit panels, perforated metal, coil and flat sheet, composite panels, column covers, plus fascia and coping. All are available in a Kynar-based 70% PVDF Fluoropon coating in 46 standard colors and 16 wood grain finishes that include a 30-year finish warranty. Most colors meet LEED requirements and are rated by the Cool Roof Rating Council. Custom colors and weathertightness warranties are offered. BIM and CAD documents are available for most products. Founded in 1965, Petersen's facilities are located in Illinois, Georgia, Texas, Maryland, Arizona and Washington. For information on the complete line of Petersen's PAC-CLAD metal products call 800-PAC-CLAD, visit [pac-clad.com](http://pac-clad.com) or write to [info@pac-clad.com](mailto:info@pac-clad.com).
