

PALA CASINO, CALIFORNIA

Pala Casino, located on the Pala Indian Reservation in Pala, CA, utilizes a distinctive barrel metal roof provided by Petersen Aluminum Corporation to help distinguish it from several other casinos in the area.

Installed by Ehmcke Sheet Metal Corp., San Diego, more than 27,000 square feet of Petersen's 24 gauge, Copper Penny Metallic finish Snap-On Metal Roofing Panels were utilized on the project. The panels were shipped flat from Petersen's plant in Chicago and were curved by Ehmcke at the jobsite. The 1" high Snap-On Panel can be curved to a concave or convex minimum radius of 9 feet, making it ideal for barrel vaults and entranceways.

Used over the front entrance and bus entrance as well as a walkway cover to the parking garage, Snap-On Panels are also well suited for applications where roof transitions are required. In addition, 15,000 square feet of 24 gauge, Copper Penny Metallic flat stock was used to manufacture flashings and trim.

The architect was Klai::Juba Architects, located in Las Vegas. The firm specializes in gaming resort projects.

The Petersen metal roofing was selected because of its ability to meet plan requirements and specifications.

Petersen, a Carlisle company, manufactures PAC-CLAD architectural metal cladding systems in multiple gauges of steel and aluminum. PAC-CLAD products include hidden- and exposed-fastener wall panels, standing seam roof panels, flush- and reveal-joint wall panels, vented or solid soffit panels, perforated metal, coil and flat sheet, composite panels, column covers, plus fascia and coping. All are available in a

Kynar-based 70% PVDF Fluoropolymer coating in 46 standard colors and 16 wood grain finishes that include a 30-year finish warranty. Most colors meet LEED requirements and are rated by the Cool Roof Rating Council. Custom colors and weathertightness warranties are offered. BIM and CAD documents are available for most products. Founded in 1965, Petersen's facilities are located in Illinois, Georgia, Texas, Maryland, Arizona and Washington. For information on the complete line of Petersen's PAC-CLAD metal products call 800-PAC-CLAD, visit pac-clad.com or write to info@pac-clad.com.
