

SHOPS AT HIGHLAND VILLAGE

Located 29 miles northwest of Dallas, The Shops at Highland Village is an upscale, mixed-use lifestyle center consisting of approximately 350,000 sq. ft. of retail and restaurants and 32,000 sq. ft. of office space. The architectural theme for the 16-building destination development is Texas Hill Country. The site design provides for a central gathering spot and a street plan which encourages exploration and discovery of the various shops.

More than 108,000 sq. ft. of PAC-CLAD material in a variety of profiles including 16" Snap-On, 18" High Snap-On, 16" Snap-Clad and 11" Flush Panels were utilized to create the desired look. All material was finished in Custom Literary Green and Weathered Zinc.

The Petersen panels were installed by GNP, Inc., Forney, TX. Design for the project was provided by O'Brien & Associates, Dallas, TX.

Petersen, a Carlisle company, manufactures PAC-CLAD architectural metal cladding systems in multiple gauges of steel and aluminum. PAC-CLAD products include hidden- and exposed-fastener wall panels, standing seam roof panels, flush- and reveal-joint wall panels, vented or solid soffit panels, perforated metal, coil and flat sheet, composite panels, column covers, plus fascia and coping. All are available in a Kynar-based 70% PVDF Fluoropon coating in 46 standard colors and 16 wood grain finishes that include a 30-year finish warranty. Most colors meet LEED requirements and are rated by the Cool Roof Rating Council. Custom colors and weathertightness warranties are offered. BIM and CAD documents are available for most products. Founded in 1965, Petersen's facilities are located in Illinois, Georgia, Texas, Maryland, Arizona and Washington. For information on the complete line of Petersen's PAC-CLAD metal products call 800-PAC-CLAD, visit pac-clad.com or write to info@pac-clad.com.
