Design/System/Construction/Assembly Usage Disclaimer

- Authorities Having Jurisdiction should be consulted in all cases as to the particular requirements covering the installation and use of UL Certified products, equipment, system, devices, and materials.
- Authorities Having Jurisdiction should be consulted before construction.
- Fire resistance assemblies and products are developed by the design submitter and have been investigated by UL for compliance with applicable requirements. The published information cannot always address every construction nuance encountered in the field.
- When field issues arise, it is recommended the first contact for assistance be the technical service staff provided by the product manufacturer noted for the design. Users of fire resistance assemblies are advised to consult the general Guide Information for each product category and each group of assemblies. The Guide Information includes specifics concerning alternate materials and alternate methods of construction.
- Only products which bear UL's Mark are considered Certified.

Roof Deck Constructions

See General Information for Roof Deck Constructions

Construction No. 588

March 11, 2015

Uplift – Class 90

Fire Not Investigated
1. Metal Roof Deck Panels* — Min. 24 MSG (.0225 in.) thick coated steel; width 16 in. max., height of female rib 1-1/2 in., male rib 1-29/64 in. Panels continuous over three or more clips with no end-laps. A bead of sealant may be used at panel ribs. Panel ribs seamed with an electric seamer with seaming operation to include upper portion of panel Clip (Item 2).

2. Roof Deck Fasteners (Panel Clips)* — Two part assembly consisting of an upper tab and a base. The upper tab is 4-1/4 in. wide and 2 in. high and is fabricated from min. 0.030 in. thick stainless steel. The base is 1-7/8 in. wide and 1-5/8 in. long and is fabricated from min. No. 16 MSG coated steel. Clips are to be spaced 36 in. OC max.

3. Panel Fasteners (Screws) — Fasteners used to attach the panels clips to the plywood decking to be No. 1/4-13 by 1-5/8 in. long No. 3 Phillips drive, truss head coated steel screws. Two screws are to be used per clip.

4. Plywood Deck — Nominal 5/8 in. (19/32 in. actual) plywood, Grade C-D, APA rated. Fastened to supports (joists) using No. 8 by 2-1/2 in. long, No. 2 Phillips Drive, coarse thread, bugle head, steel screws. Spaced 6 in. OC max. at the butt ends and 12 in. OC max. in the field. All joints to be sealed with a one part urethane sealant feathered out from the joint.

5. Joists — Graded dimensional lumber, No. 2 or better. Spaced 24 in. OC max.

6. Ply Sheet* — Any UL Classified underlayment, min. 2 in. sidelap, mechanically fastened.

7. Joist Hangers — (Not Shown) - No. 18 MSG coated steel, open seat type.

Refer to general information, Roof Deck Construction, for Items not evaluated.
