NOTE:
1. Panels should always be lapped against prevailing winds.
2. The above fastening patterns are typical and may not be appropriate for all applications. Consult a Professional Engineer for specific requirements.
3. 1 in x 1 in tape sealant shall be used at all side laps when used as a roof panel.
4. Side lap fasteners are required. Typical spacing is 18 in, however this spacing may not be appropriate for all applications. Consult a Professional Engineer for specific requirements.
5. DO NOT USE NAILS FOR ANY PANEL ATTACHMENT.
