## WHERE TIMELESS DESIGN MEETS MODERN ELEGANCE

The Board and Batten panel system provides a timeless design aesthetic for commercial and residential wall applications. It uses a concealed fastener system to maintain clean lines and a rhythmic pattern of alternating wide vertical boards and narrower elevated battens. The 3/4" batten depth and 2" width create dimensional interest while keeping trim offsets to a minimum. Board and Batten panels blend smoothly into various architectural styles. Whether creating a cozy and inviting facade or a bold and striking statement, Board and Batten exterior wall panels remain a versatile tool for architectural creativity.
