

BOARD AND BATTEN

WHERE TIMELESS DESIGN MEETS MODERN ELEGANCE

The Board and Batten panel system provides a timeless design aesthetic for commercial and residential wall applications. It uses a concealed fastener system to maintain clean lines and a rhythmic pattern of alternating wide vertical boards and narrower elevated battens. The $\frac{3}{4}$ " batten depth and 2" width create dimensional interest while keeping trim offsets to a minimum. Board and Batten panels blend smoothly into various architectural styles. Whether creating a cozy and inviting facade or a bold and striking statement, Board and Batten exterior wall panels remain a versatile tool for architectural creativity.

FEATURES

- ▶ Installs with concealed mechanical fasteners through pre-punched holes
- ▶ Vertical wall applications only
- ▶ Widths - 12", 16"
- ▶ Batten is 2" wide and $\frac{3}{4}$ " deep on all panel widths
- ▶ Maximum length for steel is 30 feet
- ▶ Maximum length for aluminum is 22 feet
