

March 1, 2022

To our valued Petersen Aluminum customers,

The aluminum market remains extremely tight globally as energy costs continue to rise and pent-up demand from the construction, automobile and packaging industries continue to strain the supply chain. Therefore, I am writing this letter to alert you to a forthcoming price increase on our aluminum products.

Effective March 28, 2022, Petersen Aluminum will be increasing prices 8% on all aluminum products. Orders will be invoiced at the price valid at the time of shipment. I'm sharing this information now to provide you with enough notice to properly include this increase into your future bids.

Thank you for your business and we look forward to working with you on your upcoming architectural metal projects.

Sincerely yours,

Mike Weis
Vice president
