 Color: Weathered Zinc

A home with a metal roof stands with more pride than neighboring homes, and for good reason. The beauty of a metal roof is superior to the asphalt shingles most homeowners think of when envisioning a residential roof. A metal roof will perform better, too. The properties of metal combined with the incredible solar reflectivity of our superior PAC-CLAD paint coating can reduce the cost of heating and cooling a home. Additionally, a metal roof will last much longer and endure better than an asphalt or wood roof. While neighbors

complain about replacing their non-metal roofs, those living under metal roofs will beam with pride that theirs looks as good as the day it was installed.

### SEE IT ON YOUR HOME TODAY

Drop a photo of any home into our online visualization tool to see how Petersen's PAC-CLAD products will look on it. Visit [pac-clad.com/pac-e-tools](http://pac-clad.com/pac-e-tools) to work with the visualizer. Or, ask your contractor for assistance.

# A LIFETIME INVESTMENT

Private Residence, Tallahassee, FL  
Installing contractor: Tallahassee Roofing  
Architect: C. Brandon Ingram Design  
General contractor: Barton Construction

Material distributor: ABC Supply  
Photo: jeffherrphoto.com  
Profiles: Snap-Clad  
Color: Mill finish

When considering a metal roof, discussions should focus on lifetime value, not upfront cost. A metal roof is for homeowners who appreciate its value. The price of a metal roof, which comes with an estimated lifetime of 50 years if properly maintained, can be up to three times the installed cost of other materials. In return for the investment, the made-in-the-USA metal roof will last 3 or 4 times longer than a typical residential roof.

## METAL EXPERIENCE MATTERS

When choosing an architect or contractor, experience matters. A metal roof is a different product that requires a specialized skill set to properly specify and install. Choosing architects and contractors with metal roof experience will maximize your metal roof's performance, and add a level of comfort to your decision.

## NEW CONSTRUCTION OR REMODELING

A metal roof will look beautiful and perform well on a home built from the ground up, or on a home undergoing an exterior remodel or simple roof replacement. A good architect or designer can blend a Petersen metal roof or siding with any architectural style or color.

## STEEL OR ALUMINUM

Petersen's PAC-CLAD metal roofing and siding products are available in either steel or aluminum. An experienced Petersen rep, architect or contractor will guide homeowners toward the material that's best for their home.

## A GREEN, SUSTAINABLE PRODUCT

A Petersen metal roof is made with recycled content, qualifying it as a "green" or recycled-content product. It is also 100% recyclable at the end of its useful life, unlike other roofing materials which are routinely disposed of by the ton in landfills.

## LITERALLY COOL COLORS

A PAC-CLAD metal roof from Petersen is available in 35 colors that are rated by the Cool Roof Rating Council. Coating technology that is specifically formulated for PAC-CLAD products reflects sunlight and cools a roof by emitting radiation to its surroundings. The roof stays cooler and reduces the amount of heat conducted to a home, saving up to 40% of a typical home's annual energy costs.

## WARRANTY COVERAGE

Petersen offers a limited 30-year finish warranty on its PAC-CLAD painted metal roof and siding panels. A weathertight warranty is available on selected metal roof products.
