

PAC-CLAD®

P E T E R S E N

A **CARLISLE** COMPANY

March 20, 2023

To: Our Valued PAC-CLAD Customers

First and foremost, thank you for your business and continued support, especially as we navigate our ERP upgrade.

Due to increased raw material costs from our domestic steel suppliers, it is necessary that we implement a price increase on the following products effective **May 1, 2023**:

Steel

- Coil, Flat Sheet, and Panels: 3%
- Clips: 3%

New pricing will be shared in advance of the increase effective date. As with past increases, all products will be priced at the time of shipment. To receive pre-increase pricing, orders must ship before May 1.

We anticipate continued raw material cost pressures which could result in additional price increases over the coming months. We will ensure you are adequately informed of any future increases.

In closing, we thank you for your continuing business and look forward to working with you on your upcoming architectural metal needs.

Sincerely Yours,

Mike Weis
Vice President Sales & Marketing
